#### **About Cannuflow**

A privately held Silicon Valley-based company, Cannuflow® develops, manufactures and markets specialty arthroscopy medical products that deliver innovative solutions to the chronic arthroscopic fluid-management problems of flow, visibility and extravasation. Designed to enhance procedure efficiency and safety, the company's ClearVu®, TwoVu®, EntreVu® EX, TwoVu EX, ExtravaStopper®, and SportPort™ devices easily integrate into surgeons' existing surgical techniques. For more information on Cannuflow and its complete line of products, visit the Cannuflow website at [www.cannuflow.com](http://www.cannuflow.com).
